The Beauty of Aviva Pools®

STYLISH CONTEMPORARY DESIGN

Designed with integrity, care and love, our exclusive line of swimming pools offers a beautiful selection of designs to fit your personal aesthetic. We offer the world's most dynamic fiberglass swimming pools delivering the perfect blend of style, function and longevity. Our exclusive suite of swimming pools, spas and tanning ledges reflect the intersection of technology, style and beauty.

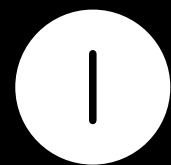

Where Strength Meets Innovation

Every Aviva fiberglass pool is crafted for unbeatable strength that doesn't just meet expectations – it exceeds them. Beneath the beautiful finish lies a triple-layered, high-performance construction system engineered to resist pressure, water intrusion and time.

**THE SECRET? THREE ADVANCED TECHNOLOGIES
WORKING IN PERFECT HARMONY**

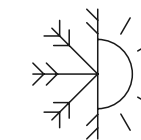

HydroShield™

QUADRAXIAL ENGINEERED FIBERGLASS CLOTH

HydroShield™ forms the powerful foundation of every Aviva pool – a proprietary quadraxial fiberglass fabric that distributes force across four directions for exceptional resistance to cracks, flexing and shifting. This sophisticated woven matrix delivers your pool's core strength while gracefully adapting to real-world conditions with engineered precision.

With fibers oriented at 0, 90, and ± 45 degrees, this sophisticated engineering design creates multi-directional reinforcement for exceptional torsional strength—withstanding twisting forces like ground movement without breaking.

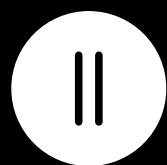

**ENGINEERED FOR
CHANGING SEASONS**

**DESIGNED TO ENDURE SOIL
MOISTURE AND TEMPERATURE**

**CRAFTED TO RESIST
NATURAL VIBRATIONS**

ViPoxy™

VINYL ESTER RESIN BONDING SYSTEM

ViPoxy™ is a premium vinyl ester resin designed to permanently seal and unify the pool's structural layers. It penetrates deep into the fiberglass weave, creating a watertight bond that resists osmosis and delamination. The result: a pool that flexes intelligently and holds strong under pressure.

Where traditional pools may develop blisters in the gelcoat from trapped groundwater – the first sign of osmosis damage – our ViPoxy™ technology creates an impenetrable barrier. This innovative formulation actively prevents groundwater from penetrating the shell, minimizing the risk of delamination before it can begin.

COMPREHENSIVE VIPOXY INTEGRATION

While competitors limit Vinyl Ester Resin to a single layer, Aviva Pools takes protection further. We integrate ViPoxy into every layer of the pool shell, creating a comprehensive defense system that ensures lasting durability from surface to core.

Aquaguard[®]X

HIGH-GLOSS GELCOAT SURFACE

Aquaguard[®]X is the sleek, brilliant surface that makes your Aviva pool shine – and protects it from UV rays, chemical exposure and surface water. It's the first line of defense and the final touch of elegance, keeping your pool looking beautiful and performing flawlessly.

Our stunning range of gelcoat colors transforms your backyard into a dream escape, engineered to withstand years of sun without losing its rich vibrancy.

Thoughtful surface design ensures:

**COMFORTABLE,
NON-ABRASIVE TOUCH**

**STABILITY ON STEPS
AND LEDGES**

**RESISTANCE TO ALGAE
FOR SIMPLE UPKEEP**

Our Lifetime Guarantee

A LEGACY OF TRUST

Our unwavering confidence in premium materials and meticulous craftsmanship drives us to protect your investment with comprehensive Lifetime Warranties – because exceptional quality deserves exceptional protection.
